

Missouri Federation of Republican Women

Caring for America Project 2020-2021

to benefit

Missouri Pregnancy Care Centers

“Diaper Bags – Fill Them Up Project”

Missouri Pregnancy Care Centers have been selected as our “Caring for America” project for 2020-2021.

Pregnancy Care Centers are located throughout the State and provide education, services and resources for women and men facing an unplanned pregnancy.

Pregnancy Care Centers help people from the early stages of pregnancy by providing tests and ultrasounds, as well as other services throughout pregnancy and after delivery.

Pregnancy Care Centers offer special services and support for just the guys as well.

Pregnancy Care Centers offer a wide range of classes on topics such as nutrition, money management, relationships and legal services, plus more.

Our project, to assist PCCs clients, consists of filling diaper bags with baby items listed as “most needed and requested”. It is my hope that each Republican Women's club will fill at least one diaper bag, and more if possible, with items from the list provided and bring them in June of 2020 to the MoFRW Convention in Columbia for a group photo before distribution to the various Pregnancy Care Centers around the State.

What a blessing it is to be able to help our tiniest citizens get a good start in life!

Thank you for your support of this project.

Barbara Smith
MoFRW President
