

## President's Message October 2020

Recent events have reminded me of the strength and resiliency Republican women demonstrate in times of turmoil and uncertainty. We gain our strength from our faith and commitment to the founding principles found in the original United States Constitution documents. We know what things we stand for and those things do not change on a whim or due to public opinion.

The Republican Party stands strong and promotes values and ideals we hold dear, including:

- Smaller Government
- States' Rights
- EVERY Life Matters
- Law and Order
- Military Strength
- Secure Borders
- Freedom of Speech
- 2<sup>nd</sup> Amendment
- Free enterprise
- Limited Government regulations
- Electoral College
- School Choice
- American Exceptionalism
- And more....

We are acutely aware of the threat to our Country and the ideals we cherish, a threat propagated by the ideology of liberalism, socialism and communism. We have seen the decades long campaign from these dark forces to change America into a Country our Founding Fathers would hardly recognize.

On November 3, 2020, the voters of each State will choose the type of Government by which they will be governed. A win for President Trump will secure our Freedom for 4 more years, a win for Joe Biden will bring an Administration whose manifesto is diametrically opposed to Republican values. The stakes could not be higher.

When the last door has been knocked, the last phone call made, the last postcard written, the last yard sign planted, there is little left for us to do, except VOTE, encourage others to VOTE, and PRAY that our Republic will once again be saved.

**Stay strong, Ladies**, and thank you for all of your effort, time and treasure freely given during this election campaign.

**God Bless You, God Bless Missouri, God Bless our President, and God Bless the United States of America!**

Barbara Smith  
President  
Missouri Federation of Republican Women
